

Welcome to our little STEK!

It's a wonderful moment when in spring the sliding doors can be opened again and we can prepare the terrace for the sunny days. Happy guests on the terrace enjoying the sunshine and all the passing boats, it's lovely!

The autumn & winter period also has its charm; due to the small space, it quickly becomes cozy and snug inside. The space is limited but we try to keep the flow as smooth as possible, so no one has to wait long for a table.

From breakfast to dinner, we try to make a party out of everything!
Sustainable, honest & fresh products are important to us. We don't only think about our meat or coffee beans but also all our packaging material is made from 100% recyclable material.

With our extensive menu, there's always something delicious for you. Do you have tips or suggestions for improvement? Let us know:)

We enjoy our lovely little Stek daily and we hope you do too!

Love, Team STEK
